

Layout drawing

Machine area make room for 1 m!

Additional information

Weight of machine body: 1140 kg
 (incl. tank and power supply unit)
 Height of machine: 2130 mm

Requested minimum measurement for
 entrance door/gate (WxH) 1300 x 2230 mm

- 1: Power supply
220-230V/AC 30 A
- 2: Water supply:
Single filling of the system with water, no regular
water connection is necessary.
- 3: Network connection
- 4: The erosion system should be set up to preferably consolidated
concrete floors on a suitable hard industrial ground. To the capacity
of MITSUBISHI possibly necessarily becoming shielding measures
do not belong in accordance with EMV guideline.
